This index is in two sections. The Subject Section is an alphabetical index to articles. Geographic entries are listed by some cities, states or provinces, or countries. The Name Section is alphabetical by surname of author; if author has more than one given name, initials are used, e.g., Smith, John; Brown, I.M. Abbreviations used are: **(ed)**—Editorial; **(GE)**—Guest Editorial; **(L)**—Incoming Mail; **(MC)**—Methodology Corner. Subject heading are the same as those used in **International Nursing Index** and are based on the medical subject headings published by the National Library of Medicine.

NURSING RESEARCH is published six times a year by the American Journal of Nursing Company, 555 West 57th Street, New York, New York 10019.

Abstracts (Department)
Communication and voice analysis of marital conflict (Hurley) 120
Comparison of knowledge and beliefs (Schlueter) 120
Critical periods in parent-caring (Archbold) 63
Determining if mechanostimulation will decrease the first and second pain of a muscular injection (Wachter-Shikow) 188
Developmental stage: relationship to temporal dimensions (Johnston and others) 120
Effects of time-controlled nonnutritive sucking opportunities (NSO) on sucking pressures (SP) and arousal in high-risk infants correction (Anderson and others) 191
Factors correlating with maternal age early postpartum (Mercer, Hackley) 188
Factors impacting on the delivery of quality nursing care (Hinshaw, Atwood) 120
Florence Nightingale and the first organized delivery of nursing services (Palmer) 188
Human loneliness: exploring the abstract (Francis) 121
Identification of clinically recorded nursing diagnoses and indicators (Halfmann and others) 188
Measurement of self-care agency in adolescents (Denyes) 63
Measuring desire for control of health care (Smith and others) 189
Movement and time as correlates of health (Engle) 121
Neighboring, care and Norwegian-American women (Aamodt) 121
Parental stressor scale: pediatric ICU (Carter, Miles) 121
Perceptual complexity, memory and human duration experience (Moore) 189
Persistent carriage of gram negative bacteria on hands (Larson) 121
Pregnant americans Part 2. Measuring the hidden costs of pregnancy (Mulligan) 189
Psychosomatic self-regulation and recovery from surgery (Wood, Pesut) 189
Quality of life and persons with melanoma (Young, Longman) 127
Reducing stress in pediatric cardiac catheterization (Naylor and others) 127
Relationships of hope to personal control and support systems in chronic and life-threatening illnesses (Raleigh) 122
Self-reported coping histories of adult psychiatric and non-psychiatric subjects and controls (Crockett) 122
Self-reported perceptions of new mothers' labor/delivery experiences (McBride) 122
Suicidal crises: relationship to the experience of time (Reed and others) 122
Aerosol
Effect of cool and heated aerosol on the measurement of oral temperature (Yonkman) 000
Age Factors
Time as an index of expanding consciousness with age (Newman) 290
Aged
Nursing students' attitudes toward sexually active older persons (Damrosch) 252
Amniocentesis
Factors in a woman's decision to undergo genetic anmiocentesis for advanced maternal age (Davies, Doran) 56

Anxiety
Comparison of the anxiety-reducing potential of two techniques of bathing (Barsevick, Llewellyn) 22
Effects of information about a threatening procedure on patients' expectations and emotional distress (Hartfield, Cason, Cason) 202
Psychological correlates of blood pressure: a closer examination of hostility, anxiety, and engagement (Sparacino and others) 143
Assertiveness
GUTS: teaching assertiveness skills by simulation and gaming (Hamm, Brodt) 246
Attitude
Effect of nursing care modalities and shift assignments on nurses' work experiences and job attitudes (Parasuraman, Drake, Zammuto) 364
Nursing students' attitudes toward sexually active older persons (Damrosch) 252
Attitude to Health
Development of a health attitude scale (Miller and others) 132
Relationship of health beliefs, health locus of control, and self concept to the practice of breast self-examination in adult women (Halal) 137
Autonomy
Professional antonomy among senior nursing students in diploma, associate degree and baccalaureate nursing programs (Murray, Morris) 311

B

Baths
Comparison of the anxiety-reducing potential of two techniques of bathing (Barsevick, Llewellyn) 22
Behavior
Perception of parents' behavior and children's general fearfulness (Yanni) 79
Birth See Delivery
Birth Weight
Developmental trends and behavioral styles in very low birth weight infants (Medoff-Cooper, Schraeder) 68
Blood Pressure
Blood pressure, stress, and mental health (Sparacino) 89
Blood Pressure, High See Hypertension
Body Positioning
Using different body positions to reduce discomfort for dorsogluteal injection (Rettig, Southby) 219
Body Temperature
Effect of cool and heated aerosol on the measurement of oral temperature (Yonkman) 354
Effect of oxygen administration on oral temperature assessment (Hasler, Cohen) 265
Effect of oxygen inhalation on oral temperature (Lim-Levy) 150
Temperature measurement in a clinical setting (Takacs, Valenti) 368
Temperature monitoring in the neonate: a comparison of axillary and rectal temperatures (Schiffman) 274
Breast Neoplasms
Comparison of knowledge and beliefs about breast cancer and breast self-examination among athletic and non-athletic women (Schlueter) 348
Relationship of health beliefs, health locus of control, and self concept to the practice of breast self-examination in adult women (Halal) 137

C

Cancer See Neoplasms
Cataract Extraction
Sensory information, behavioral instructions and coping with sensory alteration surgery (Hill) 17
Catheterization, Bladder See Urinary
Change
Investigation of the relationship of self-disclosure, interpersonal dependency, and life changes to loneliness in young adults (Mahon) 343
Measurement of change in nursing research: statistical considerations (MC) (Burckhardt, Goodwin, Prescott) 53
Child Development
Developmental trends and behavioral styles in very low birth weight infants (Medoff-Cooper, Schraeder) 68
Clinical Practicum
Role orientation and role strain of clinical nurse faculty in baccalaureate programs (O'Shea) 306
Communication
Disconfirmation in dysfunctional communication (Heineken) 211
Community Mental Health Services
Two approaches to the management of long-term psychiatric outpatients in the community (Slavinsky, Krauss) 284
Compliance See Patient Compliance
Concept Formation
Theoretical question (ed) 259
Consultants
Choosing and using a statistical consultant (MC) (Jackson) 248
Consumer Satisfaction
Patient satisfaction instrument: precision by replication (Hinshaw, Atwood) 170
Patient satisfaction measure as a criterion to evaluate primary nursing (Ventura and others) 226
Cost Control
Low-cost research: a project on a shoestring (MC) (Holmstrom, Burgess) 123
Critical Care Units
Diffusion survey of coronary precautions (Kirchhoff) 196

D

Delirium
Effect of preoperative intervention on delirium in cardiac surgical patients (Owens, Hutelmyer) 60
Diabetes Mellitus
Clinical estimation of the renal threshold for glucose in persons with diabetes mellitus (Hite) 153
Drug Therapy
Sexual functioning, health beliefs, and compliance with high blood pressure medications (Watts) 278

NURSING MANAGEMENT POSITION

NURSE LEADER - CLINICAL STUDY UNIT

The Clinical Study Unit, a Research Facility funded by the National Institutes of Health, is seeking a Senior Nurse Leader who has experience in clinical investigation, administrative skills, and outstanding abilities to supervise general medical and general surgical care. The Nurse Leader acts as a research coordinator of the Clinical Study Unit projects, assisting investigators in the development of research protocols, and monitoring human research policies and procedures. An opportunity will also exist to participate in medical school teaching. Responsibilities include staff development, participation in intradepartmental and interdepartmental programs and coordination of the operational activities of this unit with other hospital activities. Requirements include previous research experience, general clinical expertise based on nursing and supervisory experience, and demonstrated leadership. M.S., M.P.H. or equivalent degree required.

For further information or to arrange an interview, please call Susan Crossley, Nurse Recruiter, at 956-5575, or send your resume to her attention at the address below.
